# DEDICATION

SCRIMSHAW 1986

Doctor Vernon Ingraham

We, the class of 1986, take great pride in dedicating this year's *Scrimshaw* to Doctor Vernon Ingraham, professor of English. During his twenty-one years of service here, Dr. Ingraham has taken an active role in various aspects of university life, as Chairman of the English Department for four years; as advisor to the Veteran's Club during the Vietnam War; as a member of the Faculty Senate, Humanities Council and Faculty Federation; and as both a teacher and friend to his students.

Perhaps some of the most important qualities to be found in a good teacher are commitment and dedication, a sense of honor and fairness, and of course, academic excellence. Dr. Ingraham has demonstrated these qualities in all aspects of [illegible] served as an Infantryman in World War II and was awarded the Combat Infantry Badge, the Purple Heart, and the Bronze Star [illegible]. This Milford, New Hampshire native received his B.A. from the University of New Hampshire, his M.A. from Amherst College, and his Ph.D. from the University of Pennsylvania, where he was also a Danforth Fellow.

Yet despite his list of accomplishments and his active role at the university, his approach is surprisingly low-key — very reserved, to the point, typically Old New England.

Among faculty and students alike, he is known as a man of considerable wit and as a man of few words. Those few words, however, are often rich with meaning. In a recent letter to a former student, Dr. Ingraham reflected on the "few words" his years at S.M.U. have afforded him:

> "The faculty and student body here have satisfied my own commitment to public education, and I have felt a sense of worth over the years I have been in the classroom. Not least of all is the gratification that comes from the knowledge that you have touched a goodly number of lives in a very special manner — the teacher should be humble in the face of such awareness."

[illegible] is for your commitment to this university, your devotion to education, and your concern and regard for students that the class of '86 pays you tribute, Dr. Ingraham. We thank you for all you've given us and wish you all of life's happiness.

Jan L. Carden

agape (ə gāp') adv., adj. with the mouth wide open, in befuddlement, shock, confusion, surprise, etc.

agape (ä gä'pā) n., altruistic, unselfish, spiritual love of one human for another.

Education has a great deal to do with these homographs. It reduces the number of times the adjective will be applied to us, and creates the conditions that make the noun possible.

On the one hand, a good education will enable its possessor to do more than stand impotently agape (ə gāp') before the complexities of our social and physical worlds. It broadens one's familiarity with what *has* been said and done so that one is prepared to deal with what *will* be said and done. It awakens us to possibilities and puts to rest debilitating preconceptions. It enables us to escape our provincialisms and means we will not often become slack-jawed through befuddlement, shock, confusion, or surprise.

On the other hand, a good education creates an understanding of personal and cultural differences which in turn enables tolerance and broad human sympathy to grow. It helps us know ourselves that we might know others, and helps us know others so that we might better know ourselves. It encourages emotional, spiritual, and imaginative growth. A good education, in fine, creates the necessary conditions of agape (ä gä'pā) a humane love for humankind.

Education is never complete. It is part of a life-long process. I sincerely hope that those who are graduating have taken full advantage of their time at SMU to accelerate that process. I also hope that their education has had something to do with what the work "agape" means.
